Additional information

Please advise anything else we need to know to manage your application effectively.

The employer (MUMA) trespassed the union on 25 July 2025 from its worksites after the union initiated bargaining for a collective agreement. Employees were not permitted to recruit or be active in the union. The union on advise from members put the initiation on hold until members felt safer. The members decided at an off-site meeting on 8 December to have the trespass withdrawn and for MUMA to enter into negotiations. The employer rejected this request. So we are requesting the ERA to force the employer to do so. the employer is increasing its anti-union attacks so we will pursue an injunction very soon as well.
